

MEMBERS INFORMATION – WINTER PLAY 2022 – PLEASE.....

- **DO NOT PLAY** on any lawn that has any surface water or is Frosted – if there is any water on the Car Park between the stream and lawn 4 then the lawns are likely to be unplayable. Check weather before you travel (bbc weather or Lakeside WEBCAM)
- **ALWAYS sign in (name and times) in the CLUB RECORDS DIARY – this is a REQUIREMENT** of our Community Amateur Sports Club (CASC) status
- **SWISH** the lawn(s) before use if there is any **DEW** or **WORM CASTS** present – **FACT** – The GRASS beneath a **FLATTENED** worm cast can take **WEEKS** to recover.
- **Tidy lawns of excessive leaves** using rake in store shed and place in Compost Area
- Use the **CORRECT** hoops for each lawn / half lawn – all hoops are labelled in the store shed and the lawn numbering is shown on the lawns map below
- Use the rubber mallet to **TAP** the **HOOPS** (on top of one upright at a time – alternate hits) into the hole so that **PART** of the **CARROT** remains showing

- Use the **METAL HOOP LIFTER** to **REMOVE HOOPS** after play
- Return Hoops and balls from the place you got them from
- Ensure all lights are switched off and the hoop store / clubhouse is locked (with blinds down) when leaving (if you are the last person there)
- **Do NOT** change the settings on the radiators in the Club house – they are set to come on if the temperature drops below 5 degrees.

WHEN PLAYING –

- **JUMP SHOTS ARE NOT allowed** from October to the end of March **EXCEPT** on the **practice area** – **LAWN 2** (and THEN ONLY IF that area is **COMPLETELY DRY**).
- **IF a ball gets lodged in the JAWS of a hoop** Move the ball 12 inches (a mallet head) in ANY direction without penalty (no hoop point can be scored) and continue the next shot in sequence (GC).
- **PROTECT the HOOP runs AT ALL TIMES** – if a rabbit run is developing, please use the pitch repairer in the store shed to “lift” the turf to make it flatter.
- **PROTECT Corner IV on all FULL and HALF lawns** – please agree different starting positions for Golf Croquet – either corner 2 or on the East Boundary **AWAY** from the normal starting point
- **ROTATE YOUR LAWN USAGE** – vary the lawns / half lawn you use.
